TORAY President

Award 2017

bestowed on Penfabric.

Dear Penfabricans,

As an encouragement to Toray Group companies and associates worldwide, the Toray Achievement Recognition and Award Presentation is celebrated yearly by our parent company, Toray Industries, Inc.

This year, the prestigious occasion took place on April 17 at the Toray Head Office in Tokyo. It was a most officious and important ceremony, underlined by the Toray Company song being sung, and attended by about 80 Toray top management members as well as the award recipients.

At the ceremony, various Toray companies around the world were bestowed awards for outstanding performances in their respective fields. Penfabric came out Champion as we garnered the Toray President Award, the top accolade, for continuously achieving higher profits for four consecutive years from 2013 to 2016. Penfabric

Executive Director Mr Kenta Nomura and Executive Director cum Sales General Manager Ms Josephine Teoh, represented Penfabric at the joyous occasion. They were accorded the honour of receiving the prestigious award from Toray President Dato' Dr Akihiro Nikkaku himself.

It is indeed the honour of every Penfabrican that we are bestowed this prestigious Toray President Award, what more for the second time. The first occasion was in the year 2014. Usually, this Award is only given again to a company after a lapse of at least 3 years. As such, it shows that Penfabric's performance has been consistently improving in terms of overall management and profits as well. This Award was not earned easily as the competition involved all 245 companies within the Toray Group. Hence, we are indeed privileged to be acknowledged as the top company among the large number of companies.

I would like to express my thankfulness and dedicate this Toray President Award 2017 to all Penfabricans for your hard work and sacrifices. Through your daily team work, you ensured that we put in the best possible piece of work. The notable projects that we had undertaken to ensure safety at all times, save cost, increase efficiency, improve productivity, get educated in new technologies and I T related sectors are as below:

1. P10.
2. DMS.
3. RFiD.
4. IoT.
5. T2C.

6. MMU.
7. Made in Green.
8. e3C.
9. SGA.
10. Blue Ocean Strategies (BOS)

Dear Penfabricans, Do continue with your excellent efforts to further enhance and improve our capabilities as Penfabric marches onwards to become the best company in the world. Have a lovely long weekend savoring the success of this moment. Be very proud to be a Penfabrican. Meanwhile, start planning for our next assault to accomplish our mission to be the Excellent Company in the World.

Thank you.
